Dear parents/guardians

Here is the **second** list of Grade One sight words. Please continue to work on the previous list as those words need to be mastered. Once some of those words are too easy/mastered for your child, you may begin to introduce these new words. You can cut these works up into flashcards as well! A list of the words and their approximate pronunciation and meaning is included for you.

This list of made up of words that students will often see in texts this year. Students are to learn and work with these words in Grade One, they are not expected to be mastered by the end of the year . unlike List One. Of course, being familiar with more words will facilitate their reading fluency and promote reading confidence.

Thank you for your continued support!
